

BIG CREEK EDUCATION CENTER DISCOVERY SCHOOL PERSONAL GEAR AND SUGGESTED CLOTHING LIST

Since all classes are outdoor oriented, you will want to be prepared for unpredictable weather, especially rain, cold winds and even snow, during any month. Clothing should be suitable for hiking in cold weather and **should include good rain gear - both tops and bottoms**. Wool and polypropylene work best to keep you warm in wet weather - *cotton gets wet, stays wet, and makes you cold!* Don't learn the hard way. It is generally 10 - 20 degrees colder than the Kalispell area. Laundry facilities are not available.

Check off each item as it is packed into your duffel bag, backpack, or suitcase.
